### W W | THE IMPERFECT PROPHET

- Motivational Speaker
- Podcast Host & Emcee
- Champion of Women 40+

#### BIO

- Wonder Wendy Farrell is "The Imperfect Prophet" - a powerhouse motivational speaker who helps women over 40 reclaim their voice and expand their lives when society expects them to shrink. At 59, Wendy embodies her own message: your best chapters aren't behind you, they're just beginning.
- With a background in media, PR, and journalism, Wendy brings exceptional freestyle storytelling ability to every stage. Her authentic approach addresses what others won't: the reality that 63% of women over 50 experience discrimination, yet women in this age group are the fastest-growing entrepreneurs, starting 1,817 businesses every single day.
- After retiring to Arizona, Wendy could have let life get small. Instead, she became a plus-sized model, launched "The Imperfect Prophet" podcast, and built a thriving community called The Bucket Listers - women who refuse to accept that their prime is over. Through her signature message, "It doesn't matter if you fail - you've already changed the world," she transforms how women see their setbacks, struggles, and age itself.
- Wendy's gift is her ability to speak from lived experience without polish or pretense. She shares the struggles alongside the victories, making audiences feel seen, understood, and inspired to step into their power. Listeners regularly tell her: "Your message gave me the courage to quit my job... to stay in my job... to dream... to not wait... to finally step into who I was meant to be."
- Wonder Wendy doesn't just talk the talk, she walks the walk: modeling, and remaining active in numerous organizations that support women, the community, and the arts. This grandmother is building a movement that challenges ageism and unleashes decades of wisdom. Aging women should not be allowed to fade as they are exactly what our society needs.
